Daily Standup Notes

Team Member Name

Development Team Member - Backend Specialist

What did I do yesterday?

- Completed backend API for scoring algorithm
- Implemented UI validations for questionnaire fields

What will I do today?

- Begin work on suitability ruleset
- Prepare demo environment

Any blockers?

- Awaiting access to staging CRM API

Summary Section

Progress made on backend API and questionnaire validations. Team is transitioning to suitability ruleset development and demo preparation. Blocker identified due to pending CRM API access.

Risks / Issues Identified

- Delay in CRM API access may impact suitability ruleset integration timeline
- UI validation dependencies require coordination with frontend team

Dependencies Raised

- Dependency on CRM API team for providing staging access
- Dependency on compliance team for suitability ruleset inputs

Escalations (if any)

- Escalation to IT support team for expediting CRM API staging access
